

## Fleet Inventory

**Program Summary:** The Village of Saranac Lake completed the attached Fleet Inventory in March 2020. The headings on the spreadsheet cover the bulleted categories as they appear on the Climate Smart Communities website. MPG ratings are not typically stated by the manufacturers for vehicles exceeding ½ ton rating; therefore, this data is included only where available. The vehicle fleet inventory is maintained by the Head Mechanic at Central Garage and tracked via our fleet management software, Manager Plus. All assets are updated in when they are purchased or sold. Much of the information in the Fleet Inventory was derived from Manager Plus. Some information is unknown, such as miles driven annually for a groomer (it was purchased used) and a parade truck that lacks an odometer. The data for miles driven annually was collected in March 2020. Village staff are working to establish a procedure for documenting annual fuel consumption and average cost of fuel per mile, which will assist in making decisions about types of vehicles to purchase. Purchasing and vehicle replacement for the Village of Saranac Lake fleet is evaluated annually during the budget process, or as needed as a result of normal wear-and-tear and maintenance needs, or as a result of emergent circumstances such as machine failure. General replacement schedule is as follows: small trucks and cars every 5-7 years or 80-100,000 miles; large trucks every 10-15 years or 100,000 miles (or 10,000 hours); heavy equipment every 10-16 years or 10,000 hours; and police cars every 3 years or 100,000 miles. The Fleet Inventory is updated annually in April by the Head Mechanic and sent to the Community Development staff who add additional data regarding fuel consumption.

Village of Saranac Lake Fleet Inventory - 2019

Completed May 2020

ID #	Model Year	Year Purchased	Make	Model	Drivetrain type	Type of fuel	MPG rating	Mileage	Class	GVWR over 8,500 lbs (y/n)	Vehicle function	Dept	Miles driven annually	Fuel consumption (annual)	Avg. cost of fuel per mile
