Re: Acquisition of Street Lighting Facilities by Village of Saranac Lake

Dear Mr. Sweeney:

The purpose of this letter is to advise you of changes with respect to the proposed Agreement for Purchase and Sales of Street Lights ("PSA") and the related License Agreement for Customer-Owned Street and Area Lighting Attachments to Utility Poles and Structures ("Attachment Agreement") that Niagara Mohawk Power Corporation d/b/a National Grid ("National Grid" or "the Company") provided you on March 7, 2019.

After National Grid delivered the PSA and Attachment Agreement for your consideration, several changes have taken place requiring the Company to update both agreements. First, the New York Public Service Commission (the "Commission") issued orders approving the sale of assets to municipalities, including the City of Albany, City of Cortland, and Town of Skaneateles, which required the Company to modify the stray voltage testing obligations contained in the original agreements. Specifically, the Commission clarified that following the transfer, the Company is to continue stray voltage testing consistent with the Commission's Order in Case 04-M-0159 (December 15, 2008), while the municipalities will maintain responsibility for permanently repairing any stray voltage conditions identified as a result of the testing.

Second, the Company successfully discharged its mortgage indenture, removing the time-intensive mortgage indenture release process and associated Board approval requirement from the list of closing conditions. Third, the Company identified a need to adjust the transaction and transition cost calculation to more accurately reflect the work being performed. Fourth, some municipalities have indicated an interest in smart city technology, such as network lighting control nodes, and the Company has worked with those municipalities to modify the Attachment Agreement to accommodate such technology consistent with the Company's tariff obligations.

In addition to the above modifications, the Company's experience closing street light transactions with other municipalities suggests further clarification is needed regarding potential incremental costs related to the separation work (*i.e.*, installation of disconnect devices and labelling). To that end, the revised PSA provides that the Company will work, at the municipalities request and sole cost, to develop information such as maps and geographical information system ("GIS") records.

To Whom It May Concern:

On behalf of the Village of Saranac Lake we would like to take this opportunity to express our strong support for the Empire State Development's Market New York grant request for the Empire State Winter Games in the North Country Region.

The Games act as a tourism driver to New York state and serve to elevate global recognition of its unique world-class destinations as a special place to visit, live, work year round creating everlasting family memories for a broad market of participants, their families, support crews, volunteers, and spectators.

With over 2,200 athletes, the ESWG are the largest annual amateur winter sporting event in North America with registrants from over 15 states and 3 countries. The continued growth of the ESWG has proven a reliable source of economic impact however additional funding is needed to secure a sustainable program. Without the additional support of Market New York, the Games will see a significant shift in the overall effectiveness of the Games as a tourism driver.

Saranac Lake continues to produce a significant number of Winter Olympians, and the Empire State Winter Games are an important competitive opportunity in that process.

For those reasons, we strongly support the Empire State Development's Market New York grant request for the Empire State Winter Games in the North Country Region.

If I can be of any further assistance, please do not hesitate to contact me.

Sincerely,

Clyde Rabideau

Commissioner Visnauskas
NYS Homes and Community Renewal
Hampton Plaza, 1st Floor
38-40 State Street
Albany, New York 12207

Dear Commissioner Visnauskas,

This letter is in strong support of Franklin County's application for a countywide Microenterprise Program. This program will complement the North Country Regional Economic Development priorities to increase jobs and build wealth in the region by strengthening existing resources, building capacity and fostering entrepreneurial opportunities.

Franklin County is a mix of villages and rural communities with diverse needs and opportunities. A countywide program will have capacity to promote downtown revitalization as well as other priorities such as value-added agriculture and tourism outside of population centers. This approach will support both villages and towns with the goal of transformational improvement of the economy throughout the region.

Due to limited resources, access to markets, infrastructure, transportation and dependence on seasonal business, Franklin County experiences challenges growing its economic environment. Small businesses and microenterprises often feel these impacts most acutely. To strengthen resources in support of these critical businesses, the County has partnered with several economic development agencies in the region to improve access to financing and mentoring support for small business. This microenterprise program would complement these efforts and help to fill funding gaps. It will also support the NCREDC strategy to attract and nurture entrepreneurial pioneers, cultivating innovative clusters in our rural communities, and foster development of small businesses and entrepreneurial activities that add value to local resources.

With over 19% of County residents living in poverty, there is a clear need for financial support to low and moderate income families and individuals. This program will incentivize business creation and expansion that will provide employment for this crucial segment. In addition, new services and opportunities will improve the quality of life, vitality and appeal of the region.

A grant from the Office of Community Renewal to create this Program will complement and support the economic development goals of the County and region. I would therefore appreciate your strong consideration of Franklin County's request.

Sincerely,

RE: Application for ESD Market NY for Play ADK – “Developing a Children’s Museum and Family Resource Center in the Tri-lakes Region” Project

Dear Mr. Carr,

I am writing to endorse Play ADK’s Application “Developing a Children’s Museum and Family Resource Center in the Tri-lakes Region” Project. Play ADK is working to develop a children’s museum and family resource center with opportunities for open-ended, imaginative play for young children and their families living in and visiting the region focused on Adirondack culture, history, and community. This initiative will meet a considerable need in the Adirondack region for spaces that encourage play for young children and provide resources for parents and families.

Play ADK has the potential to be truly transformational for Saranac Lake. Play ADK’s plan to renovate a historic, two-story warehouse and large industrial site on Depot Street in downtown Saranac Lake into a 15,000-square-foot state-of-the-art children’s museum and family resource center aligns perfectly with the goals of the Village. Play ADK will add significantly to the attractions available to families living in and visiting Saranac Lake and is uniquely positioned to lead the revitalization of Depot Street, identified by the Village of Saranac Lake as a high priority area for revitalization, spurring future business and nonprofit investments in that area. This initiative will be a vital resource for local parents and families, a critically underserved audience in the region, and be an important economic catalyst for the region by attracting families with young children to both visit and live here.

I encourage the North Country REDC and ESD Market NY to consider full funding for this request. Investments in the Play ADK project are an investment in the Adirondack Region.

Sincerely,

Clyde Rabideau, Mayor
