Mayor and Village Board
Village of Saranac Lake
39 Main Street, Suite 9
Saranac Lake, NY 12983

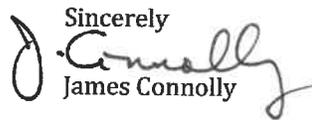

I am writing to apologize for my outburst at the recent Village Board meeting on 6/25/18 during the discussion of letters sent to the Village Board by the NYS Division of Housing & Community Renewal and the Adirondack Housing Development Corporation. As you are aware, the AHDC has been working for well over a year to apply for and obtain a grant for the Helen Hill project. The property is currently managed by the AHDC, which contracts with the Harrietstown Housing Authority to provide staff and property management services.

In part, AHDC's mission is to develop projects benefiting the Village and surrounding area and provide additional income to the Housing Authority to supplement much-needed capital projects at the Lake Flower Apartments and Algonquin Apartments, both located in the Village. I know the Village is very familiar with the two apartment facilities and is more than aware of the need to keep a wide variety of housing available for all income levels in the Village. There are significant challenges inherent in providing affordable housing in any community as income of elderly, disabled, young families and others do not necessarily match the cost of either rental or purchase of property. Federal and state grants are primary ways to create the needed rental units for lower income individuals and families.

The AHDC/HHA got involved with the Helen Hill project in 2012 with the dissolution of ComLinks. It has been a complicated and frustrating process for the AHDC to develop an application due to several liens that were associated with the project prior to AHDC involvement. It was only with a great deal of effort by the HHA Director Sarah Clarkin and the volunteer Board of the AHDC that we were recently awarded a major State grant through NYS Housing & Community Renewal to improve the property and payoff the previous Village Loan on the property. I had hoped previous discussions with the Village, via Ms Clarkin and Mr. Dunham, had provided detailed information on the extent of the effort involved in getting the State grant and the precarious situation of income/rent restrictions and limits on subsidized housing projects. We have been looking for any and all help possible to make this project viable. Our concern was also heightened by the fact that the State of New York has first lien on the property and it is virtually impossible to have the property used for anything other than for its current use since the lien makes it impractical to create a possibility of a private sale.

When Mr. Dunham and I attended the Village Board meeting on July 2nd we were hoping to be able to answer any questions you may have on the project or the application. Much information had already been exchanged. I was somewhat surprised to hear new information (or at least information I had never heard before and about which I was completely unfamiliar) about the relationship of the loan between the Village and the current owner. When asking for more information about the loan, it appeared as though I would not get an answer. I got very agitated and apologize for what I did.

It is my understanding that the Village staff, Ms. Clarkin and Mr. Dunham have continued discussion on this important matter. I hope that consensus is reached and the grant and project move forward. I sincerely regret any action on my part which may have impeded these discussions and again apologize to the mayor and all Board members.

Sincerely

James Connolly

Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]
 Project :
 Date :

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.
